HAMBURG CUT OFF.

Cabin Passenger Service to that Port Is Stopped.

Rate Alleged in Hamburg.

Despatches received to-day at the office of the Hamburg American Packet Company, 37 Broadway, state that the directors of the Company have resolved to adopt radical easures to prevent the introduction of cholera into the country by the steamships

Hamburg, the port of departure of their steamships for New York, is apparently the centre of the cholera epidemic in Europe The number of deaths from cholera there is oots up into the hundreds.

The Company has decided to discontinu the service of fast ships and cabin passenger: to Hamburg until the epidemic has disar-

The steamships Fuerst Bismarck, Normanis, Augusta Victoria, &c., will ply only to outhampton until further orders, and will carry no immigrant passengers whatever All immigrant passengers will be brought by separate ships from Hamburg, and no cabit passengers will be taken on those ships.

Cabin passengers desiring to come to New ork in this Company's ships must board hem at Southampton.

By this means, the Company hopes to give ost efficient aid to the health officials here.

THE PESTILENCE IN EUROPE. adignation at Official Slowness in Hamburg and Antwerp.

[BY ASSOCIATED PRESS.] HAMBURG, Aug. 25.—The papers here which have been accused of greatly exaggerating the situation turn on the authorities to-day and attack them for persistently denying the the violence of the outbreak made concealment no longer possible. They claim that if the authorities had admitted at the start that the disease was true cholera sanitary measures might have been enforced that would have prevented the spread of the disease to the extent which it has now

ST. PETERSBURG, Aug. 25.—Advices received prevent it from spreading to all parts of the bere from Astrakhan, on the Volga, show Many vessels are arriving from Europe every day at Boston, Philadelphia and Baiti-

here from Astrakhan, on the Volga, show that the cholera, which has been ravaging that city, has lost its epidemic character.

Sr. Parrassuno, Aug. 25.—The official cholera report yesterday showed 5,670 new cases and 2,743 deaths.

The disease is spreading in this city, but the death rate is smaller. The doctors say that the disease is less virulent in its character, and that in addition to this the number of deaths has been lessened by the better arrangements for the treatment of patients.

One reason why the people of St. Petersburg do not get panic-stricken is that Europe pean and perhaps also Asiatic choicra is endemic in the city, an average of 3,700 deaths annually resulting.

Paris, Aug. 25.—The condition of many of the modera appliances for the transplants.

Country.

Many vessels are arriving from Europe every day at Boston, Philadelphia and Baitimore and Baitimore and Baitimore and Baitimore and Strick and St. Petersburg at the durantiline regulations ostricted the mote and other ports, and at helter of these cities are the quarantiline regulations ostricted the stead at New York. The officials and the danger than half of the man remembers of our Union.

We are striking because we want to live. We ask for a regular scale of prices. The Cally weak is Montreal, and the Canadian at the

[Don't play the Futurity too heavily. Don't get agitated over the tennis championship. Don't allow yourself to be scared by cholera sensations. This advice is timely and to the point .-Morning Paper.]

n the infected ports of France, Germany and selgium, and it is only reasonable to expect that the disease will eventually find its way here among the passengers of the steamships, no matter how carefully the companies may guard against its introduction.

Within the next week more than two thousand passengers will reach this port from Hamburg alone, where the scourge is now at its height, so that the prospect that the New York authorities will have to deal with cases of the disease, and an opportunity be afforded of testing the efficiency of the precautions they have taken to prevent its introduction into New York is not so remot

as many may imagine. Sufeguards on Which We Most Rely. While it is true that Dr. Jenkins and the soard of Health have adopted the most thorough measures to ward off the threatening presence in Hamburg of Asiatic cholera until danger, and that the port of New York is furnished with the most ample protection that

means certain that other cities along the At-lantic scaboard are provised with an equally efficient quarantine service.

In fact, it is to be leared that the greatest danger threatens the country from those other sources, and that it the disease once obtains a foothoid in any other ports it will be extremely difficult to check its course and

Paris, Aug. 25.—The condition of many of the emigrants who pass through this city is such that should cholera break out among them it would find a rertile field for its apread.

The Committee here state that within a month 1,000 refugees from Russia have passed through Paris, most of whom were on their way to the United States.

The Danger at Montreal.

Vessels of the Hamburg-American Packet Company arrive three a week from Hamburg, and the danger is increased by the large number of ocean tramps which go there to trade. Desoatches from Montreal this morning state that the Hominion Government has been arged to establish extra quarantine stations at once at both quebec and Montreal, with hospitals where intected passengers may be isolated in case the fears of the citizens are realized.

Those who have recently arrived here have been in a meet filthy condition.

It was found necessary to thoroughly disintect the premises where they spent the period of their stay here.

Anywar, Aug. 25.—The excitement caused by the acknowledgment of the physicians that Asiatic choiera is in the city has not subsided, and those who can afford to do so are making ready to flee to various places to secape the disease.

There is no appreciable change in the situation. It is generally believed that the disease reached here from some vessel from an infected port, and there is considerable indignation that the authorities did not enforce the quarantine regulations until after the the disease had got a firm ioothoid in the city.

It has transpired that the first persons to fall victims to the disease were dock laborers. They were taken to the hospitals, where the doctors, though probably aware that the disease was Asiatic cholera, stated to newspaper representatives

There is a most filty condition. The carefully tuning the continuous places to the situation it is generally believed that the disease had got a firm ioothoid in the city.
